Delmon Building Material is Bahrain's leading building materials supplier and distributor specialized in Deformed steel and wood items. The company boosts superior standards of quality, safety and professionalism led by a dedicated team of experts, positioning Delmon Building Materials as Bahrain's one of the most trusted building materials supplier.

Backed by a strategic vision to elevate the construction industry and support Bahrain's greatest developments, Delmon Building Materials began its operation in 1974 as a joint venture between one of Bahrain's most prominent and reputable conglomerates, Mohamed Jalal and Sons (MJS) and a reputable company with wide experience in this field Jordan Construction Materials Co.

Beside our mother company in Jordan; Jordan Construction Materials Co., Arab Building Materials in Qatar and Dubai and Abu Dhabi are working there from the seventies

Delmon Building Materials Co. has sister companies work in the same field nearby; which give us the chance to exchange the experience and make sure to achieve the highest standards in our field.

With a vast network stretching across the world, Delmon Building Materials comes to handpick the industry's highest quality building materials from pioneering international suppliers, to serve its clients the best and widest inventory of products along with reasonable prices

Clients ranging from emerging businesses to major contractors have come to rely on Delmon Building Materials as their one-stop shop supplier for a complete range of wood (white wood, plywood and MDF) and steel products (Deformed bars, welded wire mesh), available for quick delivery through fully-equipped distribution facilities. Delmon Building Materials' large portfolio of projects includes large scale national developments such as the main bridges in Bahrain and the mega projects across the country that were done in the last for decades.
